Organic Produce

Special bulk organic produce orders are handled in two ways.

Special orders may be made at the same time as the Produce Share orders are made. Exact pricing and available items for organic produce from some vendors are usually available Wednesday or Thursday. Generally full cases must be ordered but some items may be available in a smaller quantity at an increased price.

If you are interested in specific items, contact the Store and we will refer you to our Produce Share Ordering Specialist.

We also run bulk pricing specials of local organic produce when farmers have abundance. These specials are advertised in the store, via our produce share email reminders and on Facebook.
